## Olympic National Park

One of the most famous national parks in the western part of the United States has the world's largest temperate native rainforest and is listed on the World Heritage List by UNESCO as a natural heritage. The Olympic National Park is the largest original area of the United States, except for Alaska, with a total area of 3628 square kilometers, which is famous for combining the three distinct ecological environments of the coast, mountains and rainforests throughout the area. In the middle of the peninsula stands towering with the magnificent Olympic Mountains, 60 glaciers stretch endless. The tourists who love nature will find the paradise of the dream here.

**[Hurricane Ridge]** overlooking the virgin forest, walking between the clouds, looking into the 19 mountains of the Olympic mountains (in case of bad weather cannot reach the hurricane Ridge, we will go to the Olympic National Park temperate rain forest area).

**[Crescent Lake]** is located in the famous 101 highway, because the shape of the lake like a bend of the moon named Glacier carved Crescent Lake has the original waters that make it full of mystery.

**[Seattle Ferry]** In the evening, we will experience the Seattle people's special lifestyle, take the ferry from the largest ferry team in North America to return to Seattle from the Baltic Island (such as the ferry for any special reasons closed or late, we will drive back to Seattle).

Travel to Olympic National Park with visiting Hurricane Ridge, Lake Crescent and many other great wonders of the natural beauty.
